Oxygen Recharge

Walk-in to the Clubhouse and Breathe in Fresh Air.

The 40,000 sq. ft. centrally air-conditioned clubhouse is designed for superior air quality. Multiple air vents at every corner continuously release fresh oxygen while removing stale air, ensuring a healthy indoor environment.

These air vents maintain indoor air quality in accordance with ASHRAE standards, a much needed amenity in today's environmental conditions to minimize adverse health effects for occupants.

(ASHRAE: American Society of Heating, Refrigerating, and Air-Conditioning Engineers)

Built for a Greener Future

VGN Richmond Towers will be constructed with a strong commitment to sustainability, utilizing eco-friendly materials and practices to minimize resource consumption and waste. The development will feature advanced energy management initiatives, including a solar-powered, energy-efficient system and home automation with sensor-activated lighting. Passive design principles for natural heating and cooling will further enhance the project's environmental performance. Additionally, extensive landscaping and rainwater harvesting systems will underscore our dedication to sustainable living.

Reliable and Clean Water - 24/7

A large residential community requires a reliable and abundant water supply. At VGN Richmond Towers, metro water is connected to every home, alongside our state of the art water treatment plant that recycles water. It's not just about providing water—it's about doing so responsibly, with care for both your conscience and the environment.

Rooms that Respond

Every room responds to your voice. With the latest in home automation, you can effortlessly control music, lighting, and room temperature through your virtual assistant. Your security is also safeguarded around the clock with AI-powered systems. Experience the future of living.

Three Layers of Security for Complete Peace of Mind

From the moment you arrive at the entrance gate to the safety of your own home, your security is our top priority. Our state of the art 3-Tier Security System includes RFID Boom Barriers at the entrance, comprehensive CCTV coverage, lobby access control from your apartment, and a Digital Video Door Phone at your front door. Additional features like piped gas further enhance your home's safety, ensuring a secure and worry-free living environment.

Multi-Level Car Park

Where Your Car Finds Its Own Luxury Space

The facade of the Multi-Level Car Parking (MLCP) embodies the principle of 'hiding in plain sight'. Designed to seamlessly blend into the master plan, the MLCP's facade integrates effortlessly with the overall visual landscape. Vertical elements are employed to obscure the functional aspects of the car park while adding a sense of warmth and openness. This approach ensures that the MLCP complements the Towers' architectural beauty without overshadowing it.

VGN Major Milestones

VGN Journey

When VGN was founded in 1942 as a brick manufacturing unit by Mr. Gurusamy, it was the start of an incredible legacy. He started a brick kiln factory, manufactured bricks in the name of VGN, and acquired large parcels of land to manufacture bricks at various locations in Chennai. He worked hard to build goodwill and earned a name as a reputed brick manufacturer in Chennai.

His grandson Mr. Pratish Vedhappudi, Managing Director, and the owner of VGN Group, holds a Master's degree in Construction Engineering from Cambridge University, England, UK. He entered the real estate business in the year 2004. His eye for detail, engineering prowess, and business acumen have resulted in the construction of large residential projects in and around Chennai. Since 2008, he has been developing large residential townships in various parts of Chennai. He acquired many prime lands in the city, to cater to the evolving needs of home buyers, and provided customers with their dream homes. A few recent multi-storeyed landmark residential projects such as VGN Notting Hill Nungambakkam, VGN Fairmont at Guindy, VGN Coasta at East Coast Road (ECR) and other notable projects at Ambattur.

Under his leadership, VGN Group has completed over 250 residential projects and over 600 acres of plotted development, consisting of 20,000 residential plots, offering a highly lucrative investment opportunity to VGN's customers. VGN has also delivered around 10,500 premium & luxury homes under his dynamic leadership, and around 1,500 high-quality homes are in the various stages of development.

VGN has been recognized and rewarded with hundreds of credible awards and accolades. The company has also sponsored Chennai Super Kings in IPL (Indian Premier League) Cricket. The journey is never over. With the mission to consistently and constantly improve and implement the latest technology in construction engineering, and to provide nothing short of the best for the customers, VGN's journey continues.
